

Polyurethane Rat Vascular Catheters

New Polyurethane (Micro-Renathane[®] and RenaPulse[®]) Rat Vascular Catheters

Product codes:

Reference: R-CAC-

Product description:

- Catheters consist of a continuous length of MRE037 or RPT037 with RenaSil, suture anchors.
- Catheters are accessed with Cat # N-23 catheter needle and sealed with Cat #23-PP catheter plug.
- No adhesives; suture anchors grip the catheter tubing without constricting the catheter lumen and are movable.
- Catheter tip rounding available for MRE037 catheter fabrications.
