

Rat training simulator

Ideal model for learning the skills required for humane and ethical handling and procedural competencies, without the need to use a live animal

Product codes:

Reference: BIO-RAT

Product description:

BIOSEB follows and offers for many years alternatives to the use of live animals for training in surgical procedures or in an academic and applied work.

Our rat training model is a purposely designed training aid to **provide the skills required for humane and ethical handling and procedural competencies, without the need to use a live animal.**

It allows to **avoid stress** to both animal and handler.

This rat model is British made using a material that does not include latex, but gives a **unique sensitivity of a living specimen.**
