

Mouse training simulator

Ideal model for learning the skills required for humane and ethical handling and procedural competencies, without the need to use a live animal

Product codes:

Reference: BIO-MOUSE

Product description:

BIOSEB follows and offers for many years alternatives to the use of live animals for training in surgical procedures or in an academic and applied work.

Our mouse training model is a purposely designed training aid **to provide the skills required for humane and ethical handling and procedural competencies, without the need to use a live animal.**

It allows **to avoid stress** to both animal and handler.

Product features:**Available models**
