

Rat Tail Illuminator

Effectively illuminates the rat's tail for easy injections and samplings

Product codes:

Reference: IRC-562

Product description:

Effectively illuminates the rat's tail with a "bright light" to allow easy and quick injection or removal, targeting the vein and limiting the risk of bleeding.

Feet with suction cups allow a good support of the platform.

Plastic cone dimensions: 14.5 cm x 12.5 cm, with a 10 cm opening

Animal weight average : 15g to 600g

Works with rechargeable batteries

The charging unit is supplied with US plug and EU adaptor
