

Heated Pad for Rodent Workstand

Heated pad to be installed on a tiltable work stand

Product codes:

Reference: RW-HHP

Product description:

Turn your workstand into a "The Heated Rodent WorkStand" with the new Heated Hard Pad kit. This Pad is designed to easily adapt to the Rodent Workstand. Its design will give you the ability to utilize the heated surface while in use on the work stand. The unit installs quite easily and can be ready for use in minutes with your existing or new Rodent WorkStand and circulating pump. The unit is also designed so it can be used as a stand-alone Heated Hard Pad. This product is a great versatile addition. (workstand not included)
