

Pad holder for training (size S)

This robust pad holder provides a simple and practical solution to mounting our suture and IV pads in vertical or horizontal positions, as required.

Product codes:

Reference: VTQ-SUT-MOUNT

Product description:

This robust pad holder provides a simple and practical solution to mounting our suture and IV pads in vertical or horizontal positions, as required.

Our pad holder is made of sturdy stainless steel and is therefore not only extremely stable but also suitable for everyday clinical routine.

Suction cups on each corner allow for easy mounting on smooth surfaces.

Vertical or horizontal positioning enables simulation of a variety of clinical scenarios.

Suture and IV pads are custom made for the pad holders and can be replaced quickly and easily.

The pad holder (S) is supplied with the Replacement foam (S) and is ready to use.

dimensions : 15 x 16 x 3cm
